

Pre-Analysis for Companies on Climate Change Risks

1. About you and your company:

Your name						
Your contact						
Company name						
Sector(s)						
Products						
Number of employees	1-100		100-300		>300]
Annual revenue						
Countries in which you sell your products						
Type and origin of raw materials						
Are the activities and production of your company affected by the following climate change phenomena?						
Extreme weather events: Heavy rain, floods and storms			□YES	□NO	□ Rarely	
Extreme weather events: Prolonged and more frequent heat waves		□ YES	□NO	☐ Rarely		
Extreme weather events: Water scarcity and drought			□ YES	□NO	□ Rarely	
Gradual / slow-onset climate change: Increasing temperatures, rising sea levels, rainfall variations			□ YES	□NO	☐ Rarely	

Private Sector Adaptation to Climate Change

3. Extreme weather events: How were you affected by extreme weather events?

	Extreme weather events	Negative effects	Measures taken
	Please list the extreme weather events that affected your company in the last five years (e.g. flood, hailstorm, etc.) and note down when they happened.	During these events, what were the negative effects on your production and activities?	Please list the measures that your company has taken to avoid further damage from extreme weather events
Heavy rain, floods and storms		Disturbance / interruption of the supply chain YES \square NO \square	
		Disturbance / interruption of production YES □ NO ⊠	
		Delays in the delivery of finished products YES \square NO \square	
		Interruption of work YES □ NO □	
		If yes, how many days on average (per year) :	
Heat waves		Decrease in the quality of the raw material YES \square NO \square	
		Decrease in the quality of the finished product YES \square NO \square	
		Problems with electricity supply YES □ NO □	
		Problems with water supply YES □ NO □	
arcity ught		Problems with fuel supply YES □ NO □	
Water scarcity and drought		Buildings and premises flooded / damaged YES □ NO □	
≶ "		Stock of raw material damaged YES □ NO □	
ents		Stock of finished products damaged YES □ NO □	
Other extreme weather events		Machines damaged YES □ NO □	
		Fire YES □ NO □	
		Employee affected (absences, injuries, illnesses, etc.) YES \square NO \square

Private Sector Adaptation to Climate Change

4. Gradual / slow-onset climate change:

Does gradual climate change (global warming, sea level rise, changes in precipitation patterns, changes in the composition of the atmosphere, etc.) have any negative effects on your business or can it have negative effects in the future?	YES □	NO 🗆	
Yes, in the following areas :			
☐ Negative effects on the quality of the raw material			
☐ Negative effects on the availability of raw material			
☐ Decrease in water availability at the supply chain or production level			
☐ Development of diseases and pests			
☐ Other effects:			

5. Climate change risks for your business:

Impact areas	Potential risks	Degree of ri	sk
Building / Location	Are the land and buildings of your company susceptible to flooding or rising temperatures (building cracks, etc.)?	□No risk □Low risk	□Medium risk □High risk
Processes	Can your production processes be disrupted in case of heavy rains, floods or hot weather? Can your machinery and equipment be damaged (overheating, flooded machines, etc.)?	□No risk □Low risk	□Medium risk □High risk
	Are your production processes sensitive to irregularities in the supply of water and electricity (power cuts during hot weather, decrease in water availability, etc.)?	□No risk □Low risk	□Medium risk □High risk
	Is your production affected if the availability / quality of raw material is reduced (lower agricultural yields, lower availability of certain fish species, etc.)?	□No risk □Low risk	□Medium risk □High risk
Logistics / stock	Can stocks of raw materials and / or finished products be damaged in the event of floods or hot weather (flooded stocks, rotting, etc.)?	□No risk □Low risk	□Medium risk □High risk
	Can the logistics and supply/delivery chain of your goods be disturbed in case of heavy rains or floods (delivery delay, etc.)?	□No risk □Low risk	□Medium risk □High risk
Employees	Does hot weather affect your employees' productivity?	□No risk □Low risk	□Medium risk □High risk
	Are the working conditions of employees deteriorated in case of floods or hot weather?	□No risk □Low risk	□Medium risk □High risk
Market	Does climate change have an impact on demand, consumer behaviour and the purchasing requirements of your customers?	□No risk □Low risk	□Medium risk □High risk

Private Sector Adaptation to Climate Change

6. Opportunities related to climate change

Do you think that climate change presents new business opportunities for your company (new products, new markets, access to new green financing)?	YES □	NO 🗆	
If yes, please describe these new business opportunities in more detail:			
7. <u>Other</u>			
Would you be willing to finance a climate risk analysis of your company to be conducted by the experts from your region trained by GIZ?	YES □	NO 🗆	
Other comments and experiences to share related to the theme of	climate change:		

Thank you!
